➤ What is this product?

Type: This product is a Société d'Investissement à Capital Variable.

Term: No fixed term.

Objectives: The Fund aims to achieve long term growth in the share price through capital appreciation by investing mainly in equities and equity related securities of China companies, including but not limited to companies which are engaged in consumer, health care and e-commerce related industries, which have strong prospects for growth.

The Fund promotes environmental, social and governance (ESG) characteristics and is thus classified as a financial product falling within the scope of Article 8 of the SFDR. For details of ESG approach, please refer to <https://www.am.miraeasset.com.hk/responsible-investments/>.

The Fund may invest up to 100% of its net assets in China A-Shares through Stock Connect, which is a programme developed for the purpose of mutual stock market access between Hong-Kong and China. In addition, direct investments in securities issued in China will be made through QFI regime and may represent less than 70% of the net assets of the Fund. The Fund is actively managed and references the MSCI China All Shares Index (the "Benchmark") by seeking to outperform it. There are no restrictions on the extent to which the Fund's portfolio may deviate from the one of the Benchmark.

As permitted by and described in the prospectus of the UCITS, the Fund may use financial derivative instruments (such as index futures and foreign exchange swaps), and employ techniques and instruments, for efficient portfolio management and hedging purposes only.

Subscription/Redemption/Conversion - Investors can buy, redeem and switch shares in the Fund on any day which is a business day in Luxembourg.

Dividends - No dividend will be declared and paid to the shareholders of this share class.

The base currency of the Fund is USD.

Investments made in units or shares of other funds may not in aggregate exceed 10% of the net assets of the Fund.

Please refer to the Fund's Supplement of the Prospectus for full investment objective and policies.

Intended retail investor: The Fund is intended for investors who are prepared to take on a relatively high level of risk of loss to their original capital in order to get a higher potential return, and who plan to stay invested for at least 5 years.

Depository: The Fund's assets are held through its Depository, which is Citibank Europe plc, Luxembourg Branch.

Distribution type: The product is accumulating.

➤ What are the risks and what could I get in return?

Risk indicator

Lower risk

Higher risk

The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

Example investment: EUR 10,000		1 year	5 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress scenario	What you might get back after costs	EUR 2,310	EUR 1,800
	Average return each year	-76.88%	-29.02%
Unfavourable scenario ¹	What you might get back after costs	EUR 5,900	EUR 5,260
	Average return each year	-40.97%	-12.07%
Moderate scenario ²	What you might get back after costs	EUR 9,440	EUR 14,160
	Average return each year	-5.62%	7.20%
Favourable scenario ³	What you might get back after costs	EUR 17,640	EUR 34,660
	Average return each year	76.39%	28.23%

¹This type of scenario occurred for an investment from 01/2021 to 12/2024.

²This type of scenario occurred for an investment from 05/2015 to 05/2020.

³This type of scenario occurred for an investment from 01/2016 to 01/2021.

➤ What happens if FundRock Management Company S.A. is unable to pay out?

The Management Company is responsible for administration and management of the Fund, and does not typically hold assets of the Fund (assets that can be held by a depository are, in line with applicable regulations, held with a depository in its custody network). The Management Company, as the PRIIPs manufacturer of this product has no obligation to pay out since the product design does not contemplate any such payment being made. However, investors may suffer loss if the Fund or the depository is unable to pay out. There is no compensation or guarantee scheme in place which may offset, all or any, of this loss.

We have classified this product as 5 out of 7, which is a medium-high risk class.

This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact the Fund's capacity to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

For other risks materially relevant to the product which are not taken into account in the summary risk indicator, please read the Fund's Prospectus available at am.miraeasset.eu.

The Fund does not include any protection from future market performance so you could lose some or all of your investment.

➤ What are the costs?

Costs over time

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- o In the first year you would get back the amount that you invested (0% annual return)
- o For the other holding periods we have assumed the product performs as shown in the moderate scenario
- o EUR 10,000 is invested

Example Investment: EUR 10,000	If you cash in after 1 year	If you cash in after 5 years
Total costs	EUR 782	EUR 2,662
Annual cost impact(*)	7.82%	3.76%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 10.96% before costs and 7.20% after costs.

Composition of costs

The table below shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period and the meaning of the different cost categories.

The table shows the impact on return per year		If you exit after 1 year	
One-off costs upon entry or exit	Entry costs	Up to 5.25% This is the most you will be charged.	Up to EUR 525
	Exit costs	We do not charge an exit fee for this product.	EUR 0
Ongoing costs taken each year	Management fees and other administrative or operating costs	1.88% of the value of your investment per year. This is an estimate based on actual costs over the last year.	EUR 188
	Transaction costs	0.69% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	EUR 69
Incidental costs taken under specific conditions	Performance fees and carried interest	There is no performance fee for this product.	EUR 0

➤ How long should I hold it and can I take my money out early?

The recommended minimum holding period: 5 years.

The Fund is designed to be held over the long term and you are recommended to stay invested for at least 5 years. You may buy or sell shares in the Fund on any business day as set out in the Fund's prospectus.
