➤ What is this product?

Type: This product is a Société d'Investissement à Capital Variable.

Term: No fixed term.

Objectives: The Fund aims to achieve long term capital growth, by investing mainly in equities and equity-related securities of sector leading companies domiciled in or exercising a large portion of their economic activity in countries (including, but not limited to, territories and special administrative regions) of Asia (ex. Japan) such as Korea, China, Hong Kong, Taiwan, Singapore, India, Malaysia, Indonesia, Thailand and Philippines but additional opportunities are also sought, whenever regulations permit, in any of the emerging market in Asia.

The Fund promotes environmental, social and governance (ESG) characteristics and is thus classified as a financial product falling within the scope of Article 8 of the SFDR. For details of ESG approach, please refer to <https://www.am.miraeasset.com.hk/responsible-investments/>.

The Fund may invest up to 30% of its net assets in China A-Shares through Stock Connect, which is a programme developed for the purpose of mutual stock market access between Hong-Kong and China. The Fund is actively managed and references the MSCI AC Asia ex Japan Index (the "Benchmark") by seeking to outperform it. There are no restrictions on the extent to which the Fund's portfolio may deviate from the one of the Benchmark.

As permitted by and described in the prospectus of the UCITS, the Fund may use financial derivative instruments (such as index futures and foreign exchange swaps), and employ techniques and instruments, for efficient portfolio management and hedging purposes only.

Subscription/Redemption/Conversion - Investors can buy, redeem and switch shares in the Fund on any day which is a business day in Luxembourg.

Dividends - No dividend will be declared and paid to the shareholders of this share class.

The base currency of the Fund is USD.

Investments made in units or shares of other funds may not in aggregate exceed 10% of the net assets of the Fund.

Please refer to the Fund's Supplement of the Prospectus for full investment objective and policies.

Intended retail investor: The Fund is intended for investors who are prepared to take on a relatively high level of risk of loss to their original capital in order to get a higher potential return, and who plan to stay invested for at least 5 years.

Depositary: The Fund's assets are held through its Depositary, which is Citibank Europe plc, Luxembourg Branch.

Distribution type: The product is accumulating.

➤ What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

Example investment: GBP 10,000		1 year	5 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress scenario	What you might get back after costs	GBP 3,740	GBP 3,530
	Average return each year	-62.63%	-18.82%
Unfavourable scenario ¹	What you might get back after costs	GBP 7,480	GBP 9,780
	Average return each year	-25.19%	-0.45%
Moderate scenario ²	What you might get back after costs	GBP 10,310	GBP 13,160
	Average return each year	3.07%	5.65%
Favourable scenario ³	What you might get back after costs	GBP 15,680	GBP 19,930
	Average return each year	56.82%	14.78%

¹This type of scenario occurred for an investment from 03/2015 to 03/2020.

²This type of scenario occurred for an investment from 10/2018 to 10/2023.

³This type of scenario occurred for an investment from 02/2016 to 02/2021.

➤ What happens if FundRock Management Company S.A. is unable to pay out?

The Management Company is responsible for administration and management of the Fund, and does not typically hold assets of the Fund (assets that can be held by a depositary are, in line with applicable regulations, held with a depositary in its custody network). The Management Company, as the PRIIPs manufacturer of this product has no obligation to pay out since the product design does not contemplate any such payment being made. However, investors may suffer loss if the Fund or the depositary is unable to pay out. There is no compensation or guarantee scheme in place which may offset, all or any, of this loss.

➤ What are the costs?

Costs over time

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- o In the first year you would get back the amount that you invested (0% annual return)
- o For the other holding periods we have assumed the product performs as shown in the moderate scenario
- o GBP 10,000 is invested

Example Investment: GBP 10,000	If you cash in after 1 year	If you cash in after 5 years
Total costs	GBP 176	GBP 1,131
Annual cost impact(*)	1.76%	1.76%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 7.41% before costs and 5.65% after costs.

Composition of costs

The table below shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period and the meaning of the different cost categories.

The table shows the impact on return per year		If you exit after 1 year	
One-off costs upon entry or exit	Entry costs	We do not charge an entry fee for this product.	GBP 0
	Exit costs	We do not charge an exit fee for this product.	GBP 0
Ongoing costs taken each year	Management fees and other administrative or operating costs	1.05% of the value of your investment per year. This is an estimate based on actual costs over the last year.	GBP 105
	Transaction costs	0.71% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	GBP 71
Incidental costs taken under specific conditions	Performance fees and carried interest	There is no performance fee for this product.	GBP 0

➤ How long should I hold it and can I take my money out early?
